### Man and Two Children Dead, Another Child Dying

Peru, Ill., Sept. 14.—(AP)—One man and two children were killed, a third child is dying, and a mother and three other children were seriously injured today when a New York Central locomotive hit an automobile in which they were riding at a crossing near McNabb south of here.

The dead and injured were all residents of Magnolia.

The dead are Christopher Nelson, 26; Violet Ahlstrom, 12; Floyd Ahlstrom, 13.

Boy, 8, Is Dying.

Laverne Ahlstrom, 8, was said to be dying.

The mother of the Ahlstrom children, Mrs. Minnie Ahlstrom, 40, was seriously injured, as were three of her other children, Leanne, 6; Rose, 4; and 17-month-old Barbara. Nelson was driving the car. When he came to the crossing and saw the locomotive, which was only pulling a caboose, something apparently went wrong with his brakes and he was unable to stop the car before it rolled onto the tracks in front of the oncoming train.

The car was carried about 100 feet before the locomotive could be brought to a stop.

Nelson and Violet Ahlstrom were instantly killed. Floyd died shortly afterward.

## WAGGONER TO GO TO CHEYENNE AS U. S. PRISONER

### Abandons Effort to Raise \$100,000 Bond For His Freedom

Newcastle, Wyo., Sept. 14.—(UP)—S. D. Waggoner, Telluride, Colo., banker, who worked a \$500,000 bond on six big New York banks, abandoned his effort to raise \$100,000 bond today and announced he was ready to accompany a U. S. Deputy Marshal to Cheyenne.

Carl Schoel, the deputy marshal, had served a New York federal warrant on Waggoner, charging the banker with conspiracy to defraud through use of the United States mails.

Waggoner's decision to accompany Schoel followed a conference with his newly appointed attorney, Judge C. C. Raymond of Newcastle.

Judge Raymond is one of the best known lawyers in Wyoming. He formerly was judge of the seventh Wyoming judicial district.

While Waggoner was making his decision here, postoffice inspectors in Denver announced that Miss Margaret Jones, teacher of journalism in Cheyenne high schools, and her sister, Miss Amelia Jones of Lamar, Waggoner's nieces, were in custody as the "mystery girls" who aided him.

Margaret Jones has been subpoenaed to appear before the New York federal grand jury and a subpoena for Amelia Jones is expected in Denver shortly.

"Investigation of all phases of Waggoner's swindle has been completed," Roy Nelson and M. G. Wenge, postoffice inspectors at Denver announced.

## Valuable Paintings Stolen From Studio Near Quincy, Ill.

Quincy, Ill., Sept. 14.—(AP)—Ivywild, the artist, retreat built by the late George Upp, Chicago artist, and in which were hung his most valuable canvases, has been robbed. It became known today, of seven of its most valuable paintings.

One of the missing canvases, for which Upp was said to have refused \$150,000, was a portrait of a woman, and three were two studies of a boy.

Ivywild was built when Upp, suffering a breakdown 40 years ago, sought a place of beauty and quiet in which he might regain his health. Later, with health restored, he remained and some of his best work was done here. Thousands of art students have visited the place in recent years. The studio has remained open to the public, anyone being free to enter, day or night.

## CLAIM INSURANCE FRAUD

Belleville, Ill., Sept. 14.—(UP)—Sult was filed here yesterday to prevent Dora McDaniels, East St. Louis from collecting two insurance policies aggregating \$330 on the life of her aunt, Dora McDaniels, McLeansboro, Ill., charging a physical examination for the policies was taken by the niece while the aunt was dying of an incurable disease.

The Southern Life Insurance company seeks to enjoin the administrators of the McDaniels woman's estate from moving to force payment of the fund.

## DEFENSE CLAIMS MRS. PANTAGES WAS BLAMELESS

### Says Japanese Victim Attended Left Hand Turn

Los Angeles, Sept. 14.—(UP)—When the second degree murder trial of Mrs. Lois Pantages is resumed Monday after a week end recess, the defense will call members of her family to the stand in an effort to acquit her of responsibility for the automobile crash death of Juro Rokumoto.

Carmen Pantages, a daughter, and Mrs. Dixie Martin, an adopted daughter, probably will be called. It was thought they would be used in the fight against the state's contention that Mrs. Pantages was intoxicated when her car and Rokumoto's collided.

It was not believed that her husband, Alexander Pantages, would testify. He will go to trial this month on a charge of attacking Eunice Pringle, a 17 year old dancer who applied for booking in his theaters.

The defense produced its most surprising testimony yesterday when Philip Esterly, a chauffeur, laid the blame for the death upon Rokumoto, whom he charged with attempting a left hand turn without signaling.

Under cross examination, Esterly denied that he had received any money from Pantages, but admitted that he had visited the theater man's home after the accident.

"Squealing of brakes attracted my attention," Esterly testified. "Two automobiles were going east on Sunset Boulevard, one attempting to pass the other and swinging out a little to do so."

"I saw the little automobile with the load of Japanese coming up the other way. The Japanese suddenly swerved to his left as if about to make a left hand turn. He gave no warning of any kind. Then came the crash."

Esterly said that the unidentified third car had stopped and parked, that he did not notice who the driver was as he was too busy attempting to assist the injured.

## Woman Tourist Is Killed At Clinton

Clinton, Iowa, Sept. 14.—(AP)—Mrs. Dorothy M. Avery of Three Rivers, Mich., was killed and Mrs. C. Derans, of Pittsburgh, Kan., was seriously injured today when automobiles in which they were passengers collided head-on east of Calamus, near here.

**SHOOT NEGRO COOK.**  
Memphis, Tenn., Sept. 14.—(UP)—E. W. O'Dell, Negro cook aboard the crack Illinois Central passenger train, "Chichasaw" was shot to death early today when he attacked a party of white men aboard the train with a butcher knife because they refused to let him join a dice game. Conductor W. E. Crawford reported when the train arrived here.

The Negro's body was taken off the train at Carbondale, Ill., the Conductor said.

## WATERWAY TO BE VALUABLE TO THIS CITY

### Great Advantages For Cities On Inland Water Routes

The following article was prepared at the request of The Evening Telegraph by S. N. Watson of this city who has made a careful study of the inland waterway subject for many years and is probably the best informed of any resident of this community.—Editor.

**(By S. N. WATSON)**

On Thursday, September 19th, at the Elks' Club, 630 P. M., Congressmen Hull of Peoria, Buckbee of Rockford and Johnson of this district, also Major C. L. Hall, District Engineer, U. S. Army of Rock Island, and C. M. Waters, associate engineer of Sterling, will tell of President Hoover's favorite project—the 9,000 mile "Inland Waterway System", now so near completion and the intention of these congressmen to induce the government at the next session of congress to canalize the Rock river from Sterling to Janesville to connect the system via Illinois and Mississippi "Hennepin" Canal, if they find that their constituents are in favor of the improvement. These men will tell how little it costs to float stuff, of the pre-war rail rate of \$48.00 for a 40 ton car of grain from Dixon to Chicago now \$22.00, of rate, by Lakes DuSuth to Buffalo on iron ore of 80 per ton, 1,200 miles, in comparison with rail rate on gravel from Foreston, 28 miles to Dixon, of 70c per ton. On inbound shipments, of a rate of \$1.00 a ton less on our coal by water, of a rate of \$2.00 less per thousand feet on our lumber by water. Of shipping the products of Dixon factories, destined for Pacific coast, east to Atlantic ports thence by water via the Panama Canal, at lower cost, although thousands of miles farther. It will be very much worth while to hear from such authorities what this cheapest of transportation will do for all communities lucky enough to be located on navigable waterways.

It should be interesting to know just how our beautiful river is to be harnessed. Below Dixon in Dixon and above Dixon.

In 1912 and 1913 the war department was authorized by act of congress to survey the Rock river from Janesville, Wisconsin, to the Canal mouth at Rock Falls, 108 miles. Appropriation \$8,000. The maps and reports are wonderfully thorough. From them the following data is taken:

Depth of water from Canal mouth to the Nelson bridge is, from the shallowest sounding, of 8 feet 6 inches to 14 feet, 26 soundings taken. From Nelson bridge to A. W. Lord's farm in Palmyra township section 11, 21 miles below Dixon, 36 soundings were taken, only one as shallow as 7 feet 2 inches. This is at the Duffy farm, where in early days there was a "crossing". From our dam to Lord's farm 27 soundings show an average depth of 6 feet 3 inches. For a channel of 100 feet in

## FALL FESTIVAL PLANS PROVIDE BIG TIME HERE

October 10, 11 and 12 Will Be Busy Ones In This City

(By John H. Byers, Secy.)

Thirty-six of Dixon's business men and six committees working in that many groups attended the Fall Festival meeting last night at the Elks' Club. Chairman Eichler of the Retail Merchants Division of the Chamber of Commerce presided. Encouraging talks were given by Mr. Eichler, Chairman Burch, Chairman Harry Beard, Chairman Knack, and Guy Miller, of T. J. Miller & Son.

The affair will be well financed; the entertainment committee, of which Charles Miller is chairman, promises plenty of entertainment and of a high standard. There will be a merry-go-round and a Ferris wheel; there might be real live Indians from the lakes of Wisconsin—Harry Beard promises Indians, and as Harry is a real "Indian" himself, there is much to expect from Harry. Several bands will be here all of the three days; there will be a German band from somewhere down the state present most of the time during the festival.

An automobile and float parade is being featured as one of the most important events of the festival. Already merchants are planning their floats. The school children will parade and this will be a big feature. Hundreds will come to watch the "kiddies" on parade. Students of the local high schools and the pupils of the rural schools throughout the county will submit posters and papers on up-to-date subjects—for these they will receive prizes. There will be a "product from the farm" exhibit, which will be in charge of William Ware, who made a big success of it one year ago. A suitable building will be secured for this exhibit.

The decorating committee has decided that all display windows, etc., will be decorated in Halloween colors, black cats, etc. Arthur McCrystal is looking after this part of the festival. Merchants are advised to get their decorations ready as soon as possible.

Chairman Knack is planning a big Booster Day, the beginning of the week of the festival—he desires at least 100 automobiles. A file and drum corps will make the trip with the boosters.

The dates for the big festival are October 10, 11 and 12. Keep these days in mind. Prepare to have a good time in Dixon. Each night there will be pavement dances—young people keep this feature in mind. The weather man tells us there will be good weather. Let's go—everybody boost for the Second Annual Fall Festival.

## WATERWAY BANQUET

Tickets for the Waterway Banquet to be held Thursday night, September 19, at the Masonic Temple, will be on sale at the Chamber of Commerce Monday morning, Sept. 16th. Phone early. Tickets will also be sold by members of the Banquet committee in the stores and offices.

## PROSECUTOR IS MASSACRED BY HIDDEN GUNMAN

### Texas Official is Shot Down While Relatives Watch

Borger, Tex., Sept. 14.—(AP)—District Attorney John A. Holmes, was shot and killed from ambush at the drive-way of his home here last night.

Holmes had just put his motor car away and was slain as he turned from the garage to go to the house. His wife and mother-in-law, Mrs. Donna B. Greene, who had accompanied him home and already had started for the house, turned in time to see him fall with three pistol bullets in his body.

The assailant had lain in wait for that District Attorney in the rear yard of a vacant house about 50 feet from the garage. Neighbors attracted by the shots, saw a man run down an alley but were unable to identify him. His foot prints were traced to a point where automobile tires had left marks in the dirt.

Authorities who organized a posse to search for the murderers, were unable to assign a motive for the slaying.

Holmes took office January 1, last. The most important pending cases he was to prosecute involved William J. (Whitey) Walker, recently returned here from Denver and Ed Bailey and Hugh Walker, all charged with murders of two peace officers here seven years ago.

## WIDOWS DIFFER IN REACTIONS IN DOUBLE HANGING

### Bride Of A Murderer And Widow Of His Victim at Hangings

Moundsville, W. Va., Sept. 14.—(UP)—Two widows furnished drama today. One was girlish and grief-stricken. The other, tall and gaunt, was satisfied that two "fiends" had been hanged for killing "my man."

At 8:45 A. M. Jack Willmot, 22, and Millard F. Morrison, 24, of Elizabeth, N. J., were hanged at the state prison here for murdering Frank Bouens, filling station proprietor.

The murder occurred near the mountain town of Lens Creek, W. Va. The two men had set out with Willmot's 15-year-old bride, Violet, last May on a honeymoon tour. Morrison's automobile broke down near Charleston and Bouens gave them a ride. He was shot dead and allegedly robbed on the journey into town. Willmot and Morrison each accused the other. Both were sentenced to hang.

**Bride Saw Him Die**

Willmot's girl bride visited him in the prison yesterday for the first time since the trial in June. She kissed him through the cell bars. She saw him die.

Today she was preparing to take his body back to New Jersey.

The other widow had lived happily for 20 years with Bouens. She drove here from Lens Creek yesterday with two sons and a daughter and demanded to witness the execution. Warden L. H. Robinson refused. So she waited near the prison until after the hangings. Then she took her children to two funeral homes, where the bodies lay and satisfied herself that they had paid the supreme penalty.

Grim and bitter, her eyes blazing, she declared:

"I would have been glad to see them hanged, but since they wouldn't let me do that I was bound to see them laying out dead like they killed Frank. I could never rest if I didn't see them dead."

Hundreds of babies die in Europe every year through the bites of rodents.

## Terse Items of News Gathered in Dixon During Day

### TRIP TO NORTH WOODS

Dr. Willard Thompson of this city leaves tomorrow morning for an automobile trip to the north woods. He will visit the Carl Shogrens on the Bowstring River, where Dr. E. A. Sickels of this city has his hunting lodge. Dr. Thompson plans to enjoy the duck shooting with the opening of the season.

### PAVING ALL Poured

The pouring of concrete on the route 2 paving south of the North-western viaduct has been completed and the contractors are now working on the shoulders of the new cement strip which does away with the bituminous macadam stretch of paving. It will be necessary to use the detour from the Burkett school to the North Western cut-off for at least two weeks longer to allow the newly poured cement to harden sufficiently to support traffic without damaging the new roadway.

### AMNESIA VICTIM BETTER

The condition of James W. Brown, amnesia victim, who was removed to the Dixon public hospital early in the week, is much improved and he will be released from the hospital soon. The man is again able to account for his presence in Dixon and came here looking for employment. Chief J. D. Van Bibber has been unsuccessful in his efforts to locate relatives of the man.

### DETOUR ON ROUTE 89

The local offices of the Illinois department of works and buildings was today marking a detour on route 89 south of Dixon. The bridge crew of the Illinois Central have started the work of reflooring and strengthening their bridge about two miles south of the city. It was originally planned to hold off on this work until the route 2 paving south of the city was again thrown open to traffic, but it is now necessary to detour over the Dutch road south and back onto the route 89 paving.

### TO DIETZ FUNERAL

Several of the members of the Lee County Bar Association will go to Moline tomorrow where in the funeral home they will attend the funeral services of Supreme Court Justice Cyrus Dietz. Judge Dietz has visited in Dixon on several occasions and enjoyed a wide acquaintance both in the city and surrounding community.

### PROGRESS ON WATER MAIN

Contractor Gil Falcon has completed more than half his work of laying the new water main across Rock river. The diver and his crew are working between the two islands and expect by the close of next week to have the main laid to the north shore line.

### WORLD'S SERIES TICKETS

Several Dixon Cub baseball fans have ordered their tickets for the world's series games. Some who hoped to secure choice seats before the arrangements for the sale were announced, received their orders and money back, accompanied by the official blanks and copies of the rules governing the reservations. Sheriff Ward Miller, a former Cub outfielder, will witness some of the world series games in Chicago next month.

### TAKEN TO ELGIN

Herbert Turner, a patient at the Dixon state hospital, was committed to the Elgin hospital for insane by Judge Leach in the county court this morning and was taken to the institution this afternoon by Deputy Sheriff Fred Richardson. Turner a few days ago, climbed upon a water tank at the state hospital and threatened to commit suicide by jumping head first to the ground.

### Say Illinoisans Have Lost Money On Western Lands

Chicago, Sept. 14.—(UP)—Visions of arid western lands bursting into bloom at the magic touch of waters from Boulder, Dam have caused thousands of persons to plunge their savings into worthless real estate that may never be benefited by any irrigation project. Flint Grinnell, manager of the Chicago Better Business Bureau, charged today.

Grinnell was reporting on a widespread investigation conducted by the bureau in the west.

Tens of thousands of acres, he said, have been purchased by Illinois investors who jumped at the opportunity, so they thought, of sharing in a boulder dam boom.

Grinnell said that 90 percent of the land will never be irrigated by water from any stream.

Land lying in Nevada is too high in elevation to receive water from the dam, he said. "In the states of California and Arizona no water will carry higher than 650 feet above sea level. The base of the proposed dam is about 1,100 feet above sea level."

"Knowledge of the topography of the district would have saved unwary investors."

### GOV. PALMER'S KIN DIES

Carlinville, Ill., Sept. 14.—(UP)—Mrs. John B. Conley, 80, grandmother of former Governor John Palmer of Illinois died here today after an illness of four weeks. One son, Dr. John Conley, Oshkosh, Wis., survives.

## GRAVEL BOAT AND CREW LOST; FIND CABIN WRECKAGE

### Believe 25 Men Went To Death With Lake Freighter

Chicago, Sept. 14.—(UP)—Three pieces of floating wreckage—a splintered cabin door, a wave dented water tank and bits of the inside trim of the cabin—told a tragic story today of the fate of the 40-year-old freighter Andaste, which sank in Lake Michigan with its crew of 25 during a gale Monday night.

The failure of searching ships to find any bodies and the battered condition of the debris, found by a fishing tug 14 miles off Holland, Mich., indicated that Captain Albert Anderson and his men went to the bottom with their ship, trapped in the cabin where they had sought refuge from the gale.

**No Time To Escape**

The fierceness of the gale left little hope that the crew might have survived the lashing sea had they had time to take to the boats which believed improbable. No trace of the wreckage of any of the Andaste's boats had been found, although the tugs Freedom and Liberty still circled about the spot where the freighter went down, seeking bodies.

The officers on the boat were Captain Albert Anderson, Sturgeon Bay, Wis.; first mate, Charles Brown, Grand Haven, Mich.; second mate, J. J. McCadde, Cleveland, Ohio; engineer, C. J. Kibbey, Pennville, Mich.; second engineer, Ralph Wiley, Benton Harbor, Mich., and third engineer, Harry P. Lutes, Benton Harbor.

The others aboard were: Frank Kasperson, Grand Haven, Mich.; cook, Earl Zellow, Grand Haven; J. Bayles, Benton Harbor; Fred Nienhouse, Perryburg, Mich.; W. Lorenz, Grand Rapids, Mich.; Theodore Jorgenson, Owa, Wis.; Clifford Gould, Ashville, N. C.; Harry Raymond, Chicago and the following whose addresses were not listed:

George Watt, E. Bluechelt, H. Whittaker, John Anderson, M. Green, Darwin Smith, Orville Johnson, S. Schmittman, George Ratcliff, William Joslyn, and T. Goetz.

The Andaste wreckage was picked up by the fishing tug Bertha G., but its master, Capt. George Van Hall, did not reach port with the news until late yesterday. He took the debris to Grand Haven, Mich., from where the Andaste set out Monday night on a trip to Chicago. George Evans and John Collins, of Grand Haven, members of the Andaste's crew who had been left behind on the last trip, identified the cabin door and the water tank.

Collins and Evans had been included on the ship's roster and it had been presumed they were aboard until officials of the construction materials company, to whom the Andaste's cargo of sand was consigned located them in Grand Haven. The number aboard then was set at 25.

**Wreckage Floating On Lake**

Captain Hall said the freighter's wreckage was floating on the surface over an area of four or five miles. He fixed the location of the disaster about 25 miles off shore near South Haven, and estimated that the ship sank about 11 P. M. Monday night.

The Andaste had cleared Grand Haven at 9 P. M. and was due at the construction materials company dock here at 9 A. M. Tuesday.

Anxiety was felt for the ship and its crew the following day when reports of the gale reached various ports. Coast guard crews from Chicago and Michigan ports set out on a systematic search of the route which the Andaste usually followed from Grand Haven to Chicago. Airplanes and private vessels joined the search but no trace of the missing vessel was found. The search had been abandoned when the Bertha G. reached port with the news of the tragedy.

Captain Anderson, 64, had been sailing the Great Lakes for 48 years and had been a master of ships for 30 years. He had planned to give up sailing after this season. He is survived by his widow, a daughter and two sons, all of Sturgeon Bay, Wis.

The Andaste's fate was tragically like that of its sister ship, the Clifton, which sank in Lake Huron with 28 men during a storm in 1924. Two other freighters, the Chicora and the Rouge Sins, went down in Lake Michigan during similar storms, each with 25 men aboard. The Chicora sank in 1895, the Rouge Simmons in 1900.

## FIVE POWERS NAVAL PARLEY IN DECEMBER

### U. S. and Britain Agree on Fundamentals of Limitation

**BY LYLE C. WILSON**  
(United Press Staff Correspondent)

Washington, Sept. 14.—(UP)—Scope of the Anglo-American naval understanding and aspirations of the two nations stood revealed today, showing a mixture of success and failure for President Hoover's program of naval reduction announced May 36 in a speech at Arlington National cemetery.

Outstanding developments were as follows:

1. Five power naval conference is to be held early in December. London is the probable site.
2. Upon the basis of agreement reached then, another five power conference would be projected in 1936 to carry the reduction principle further.
3. Great Britain's insistence upon a minimum of 340,000 tons of cruisers has defeated Mr. Hoover's desire for material reduction in the cruiser class. But strict limitation will be imposed.
4. A maximum of \$206,000,000 may be saved the United States by an agreement expected, in December, to delay laying the keels of some or all of eight replacement battleships between 1931 and 1935.
5. Destroyers are to be limited to 125,000 to 150,000 tons for Great Britain and the United States.
6. Yardstick Anglo-American parity is to be reached by Jan. 1, 1936 in all categories of war vessels.
7. By permitting certain submarines to become obsolete, the tonnage level of this craft also would be reduced.

**Depends On Others**

Officials explain that the foregoing is tentative because it depends upon the attitude of France, Italy, and Japan. Invitations to the December conference have not been sent.

Regardless of failure materially to reduce cruiser tonnage, the hoped for five power conference is expected greatly to reduce the tonnage of all naval powers to reduce naval expenditures by billions of dollars and to end competitive building. The December conference would fix parity between the British and American navies and would allot proportionate naval strength to France, Italy, and Japan. In 1936 the powers would meet again, according to the plan, and, with parity having been achieved as a starting point, attempt further to apply the principle of reduction to naval armaments.

That there will be disparity in the tonnage of the American and British cruiser fleets appears obvious. This will be avoided by means of the yardstick proposed by the United States.

Great Britain is willing to restrict herself to 15 cruisers mounting eight inch guns and of 10,000 tons. The United States would possess about 21 such cruisers. Thus the United States cruiser fleet would have a preponderance of ships with superior range and gun fire while Britain would be long on smaller cruisers armed with six inch guns.

Measured by the yardstick, if the two fleets met in battle they would be as nearly equal as mathematics could make them in fighting power, but admittedly unequal in tonnage and gun power.

## Life Long Resident Of Lee County Died Funeral On Monday

Mrs. Lenora Rosalie Byrd Walker, a native of Willow Creek Township, Lee County, and who practically lived all of her life in Lee County, and this vicinity, passed away at the home of her daughter, Mrs. Charlotte Merrow, at Amboy, Illinois, on Thursday afternoon, Sept. 12th, 1929, after a long lingering illness.

She was the daughter of Lewis and Elizabeth Hanners Byrd, and was born in Willow Creek Township, Dec. 3, 1862, being at the time of her departure from this life, 66 years, 9 months and 13 days of age. She was united in marriage with Mr. Charles Allen Walker on Nov. 29th, 1884 at Creston, Illinois, and he preceded her in death September 21, 1900.

To this union were born four children, Charles, Elroy and William George Walker of Steward, Ill., who made their home with their mother; Mrs. Charlotte Merrow of Amboy, Ill., who survive her as well as five grandchildren and two great grandchildren of whom she was very loving and fond.

She is further survived by many other more distant relatives and a host of friends who sincerely regret her passing and sympathize with the family. Mrs. Walker was the last one living of a large family of nine children, all having preceded her in death.

Short funeral services will be held at the residence of Mrs. Merrow at Amboy on Monday afternoon, Sept. 16, at 1 o'clock after which the funeral cortege will proceed by auto to the Evangelical church at Scarborough where at 2:30 o'clock services will be held conducted by the Rev. Orrin Clapper of Deland, Ill., who is a nephew of Mrs. Walker.

She will be laid to rest by the side of her husband in the beautiful cemetery at Steward, her casket carriers being nephews of the deceased and Mrs. Merrow, Lynn Johnson, Frank Elsworth, John Thorpe, Ralph Heath, Morris Veale, and Ludwig Almburg.

## I. N. U. Petitions To Buy Dredge Holdings

Springfield, Ill., Sept. 14.—(UP)—The Illinois Northern Utilities Company filed application for authority to acquire and hold all the outstanding stock and assets of the Rock River Light & Dredge Company with the Illinois Commerce Commission here today.

## TO AID YOUNG PEOPLE

Springfield, Ill., Sept. 14.—(AP)—With the object of assisting young persons to obtain an education the Sarah Landon Fund, Chicago, filed articles of incorporation with the secretary of state's office here today. Theodore S. Chapman, H. E. Cutler, and A. D. Chigren, all of Chicago are the incorporators.

The application papers stated that the purpose of the fund was "to assist young persons in obtaining an education, to promote physical and mental health of young persons, and to assist financially, or otherwise, worthy charitable or educational enterprises."

## EDISON MUCH BETTER

West Orange, N. J., Sept. 14.—(AP)—From a convalescent's chair, Thomas A. Edison today was again directing his laboratory experiments to produce artificial rubber.

The 83-year-old inventor for the first time since stricken ill a month ago with pneumonia was permitted to sit up an entire day.

Charles Edison, his son, said the inventor had fully recovered from his illness and it now was merely a case of regaining his strength.

## Say Yankee Talkies Ruin Correct English

Wellington, N. Z., Sept. 14.—(UP)—American talking pictures were seen as a menace to the English language by the members of the dominion technical education conference, who sent a resolution to the government demanding that it discourage the importation of the talkies into this country.

The resolution said the American talkies obliterated the work done in the schools to promote the speaking of correct English.

R. A. Wright, a parliamentarian, said the purity of the English language was becoming endangered and that all the British countries were becoming Americanized.

## A. N. ABBOTT OF WHITESIDE COUNTY DEAD

### Morrison, Ill., Sept. 14.—(AP)—A. N. Abbott, former legislator from the 35th Senatorial District and ex-president of the Illinois Farmers' Institute, died today in the Jane Lamb hospital at Clinton, Ill.

Funeral services will be held next Tuesday afternoon from his farm home at "The Pines," Morrison, in charge of the Masons.

Mr. Abbott was a member of the soil advisory committee, a commissioner of the Panama Pacific Exposition, organizer of the Whiteside Farm Bureau and president of the Morrison Produce Company.

## NEW YORKER IS KILLED IN HALL CHICAGO HOTEL

### Police Think Eastern Gangsters Exact Vengeance

Boston, Sept. 14.—(AP)—Samuel Rhein, 29, supposed New York furrier, who police said had been "killed out" in this city from the vengeance of New York's gangland for the past three months, was shot and killed in the winding, dimly lighted corridors of the Hotel Huntington early today.

So closely had Rhein's slayers crept from behind to press their weapons within inches of his head that police for more than an hour believed it a clear case of suicide. Not until a medical examiner found two bullet holes in the back of the furrier's skull and a search failed to reveal trace of a revolver were they convinced that there had been a killing.

A squad of police rushed to the hotel and a search of its rooms immediately revealed that one, littered with cigarette butts, was vacant and two men who had registered on September 11 from Providence, R. I., had apparently fled. The room was close to that occupied by Rhein and his wife, Sally.

Mrs. Rhein, who had delayed entering the hotel with her husband to make several purchases at a nearby drug store, told the police she knew no reason anyone should desire his death. She said that they had come to this city early in July on a "pleasure trip."

## LABOR BACKS JOHN WALKER IN ACTION TO DISCREDIT HIM

Also Support Him In Argument With Rep. Michael Igoe

Rock Island, Ill., Sept. 14.—(AP)—The prospective visit of Ramsay MacDonald, British Premier to the United States in the interest of world peace, was hailed by the Illinois State Federation of Labor today as perhaps one of the greatest steps toward outlawing war.

The annual convention of the state federation in its closing session went on record as being unalterably opposed to war and determined to make definite plans towards bringing the British statesman to Illinois should he decide upon a tour of the United States.

Praise U. S. Leadership. In parting speeches John H. Walker, president of the state federation and Victor A. Olander, secretary, lauded the leadership the United States had taken in endeavoring to bring about world peace, and the convention voted to adopt their remarks as the basis of organized labor as a unit in Illinois. The labor delegations wound up its week's session here by passing numerous resolutions, among them several providing for improved working conditions for postal employees. One of these called for an increase of \$600 annually in the wages of all postal workers and another approves the "longevity pay bill" which seeks to obtain a small annual bonus for long and faithful service in the postal department.

Provisions are ruling lower as a result of persistent free movement of hogs away from the farms.

"DIAMOND DICK'S" AUTHOR, GEORGE C. JENKS, HAS DIED

Writer Gave Boys of Earlier Generation Many Thrills

Owasco, N. Y., Sept. 14.—(UP)—George C. Jenks, an Englishman who penned himself to fortune by taking advantage of America's fondness for the "Diamond Dick" school of literature, is dead.

A two-week illness resulted in his death at his home on Owasco Lake where he still peeked at his typewriter. He left posterity more than 6,000,000 words of racy, bloody fiction.

About 26 years ago Jenks shut himself up in a Brooklyn studio and soon the "Diamond Dick" stories began to engulf the bookshelves. The youth of the nation cheered the author on and before long Jenks was writing two novelettes a week, recounting the amazing adventures of the hero who could shoot from the hip and wriggle out of the hangman's noose with a facility that equalled the exploit of Nick Carter.

It was somewhat daring to peruse a "Diamond Dick" book, and many were the boys at the turn of the century who dropped a Jenks thriller up behind their geographies, forgetting maps, while they followed Dick's feat's with pop-eyed interest.

Turned Out Vast Volume  
Jenks was faithful to his public and as the demand increased his labors became more prodigious. Ten thousand, then 15,000 words a day flowed off his pen until the chronicle of Diamond Dick stretched to 250 novels in which 5,180 redskins were consigned to the happy hunting ground by fire, bullet or sword.

In the midst of this activity Jenks found time to make a few contributions to the Nick Carter series which was the brain child of Frederick Van Rensselaer Day, and also to do some writing for adults. His less blood-thirsty works included: Official History of the Johnstown Flood, The Climax, The Desperate Step, The Name of the Bear, The Desperate Game and the United States Mail.

Jenks' career began as a proof reader on the Pittsburgh Press where he rose to editorial writer. Subsequently he worked on newspapers and magazines in New York before retiring to Brooklyn to achieve immortality.

He is survived by his wife, Kate Baird Jenks, by two brothers, Frank Jenks, of Colorado Springs and Charles Jenks of Detroit. He was 79 years old.

The funeral will be held here tomorrow afternoon.

**THE FOUNTAIN**  
N shadows glide across the shimmering plain;  
Thin clouds hang in the burning summer sky.  
The panting fields in pattern lie below.  
And gliding villages doze in the listless air.  
The yellow roads wind threadlike through the haze  
Until they falter in the distant blue.  
Faint, yellow puffs of dust mark where  
The lagging ricksha crawls on through the heat.  
And where the laden donkey plods his sandy trail.  
Aware that Peking lies full fifty li away.

Yet as I rest beneath temple pines,  
The shadows fall and let no sunshine through  
To crumbling walls and mossy stones.  
Cool from its cleft, and green, the fountain pours  
To gurgle through the water-cress and reeds.  
Beside the Golden Dragon Gate, it tumbles  
Over rocks and seeks the scorching plain  
Where women labor in the fields of rice.  
And toiling men pile high the donkey packs,  
And children frolic in the quivering light.  
How good that clear, cold water be to the bond  
That joins the temple to the homes of men.

—Leslie R. Severinghaus.

### Good Gravy Making Is a Real Gift

Life has lots of fancy things.  
Yes, fancy things at fancy prices.  
The platter that the water brings  
Is heaped with jellies, sweets and spices.  
And yet I never had a treat,  
A pie with borders crimped and wavy.  
Or anything as good to eat  
As good old-fashioned bread and gravy.

—Douglas Mallock.

This is the sentiment of many a man, and of most women, too. But there is gravy and gravy. Some is good and some not so good.

Gravy is made from the extracted juices of meat, so when there is much juice extracted, which is especially true with the less-tender cuts of meat, the gravy will retain the flavor.

Many cooks will follow a recipe carefully for the cooking of the meat, but when it comes to the gravy they make it without even guessing as to the measurements, says Miss Inez S. Wilkins, home economics director of the National Live Stock and Meat Board. Care should be taken so that the right flavor, shade of brown, and consistency is obtained. Here is a recipe for brown, or pan gravy:

1 cup pan fat  
1 cup flour  
1/2 teaspoon salt  
1/2 teaspoon pepper  
2 cups boiling water

Put pan on stove and add flour, salt, and pepper. Stir until flour is brown, but not burned (about 3 minutes). Add the boiling water slowly and bring to the boiling point, stirring constantly. Boil 3 minutes. Strain. This makes a gravy of medium thickness.

This recipe may be varied by adding a slice of onion, 1 tablespoon of sour cream just before serving, mushrooms or chestnuts, or orange juice.

Milk may be used instead of water.

**BENEFIT CARD PARTY MONDAY EVENING**  
The benefit card party Monday evening at 8 o'clock at the Dixon Country Club, sponsored by the house committee, will be well attended, from all indications. All members and their guests are cordially invited to be present. Prizes will be awarded by the committee and refreshments will be served.

**MRS. SHUTTLEWORTH A GUEST HERE**  
Mrs. T. H. Shuttleworth of Chicago, formerly Miss Eloise Thompson, is visiting Mrs. R. W. Thompson and the latter's daughter, Mrs. Fred Osterheld, of Dixon.

**WILL ENTERTAIN AT DINNER THIS EVENING**  
Mr. and Mrs. Douglas Harvey will entertain with a dinner party this evening.

### MENU for the FAMILY

Although new to many households, cheese desserts are really centuries old. Martial, the Roman poet, speaks of "cheese cake dressing with hyblaean thyme." According to this evidence, cheese cakes were on the Roman menu probably two thousand years ago.

The old recipe would undoubtedly taste peculiar to modern appetites. The following present-day recipe for cream cheese cake is pronounced "excellent" by Mrs. Evelyn B. Spooner, nutrition expert of the National Dairy Council.

**Cream Cheese Cake**  
2 cups dry bread crumbs  
2 tablespoons butter  
2 tablespoons sugar  
1 cup sugar  
1 pound cream cheese  
1/2 pint cream  
2 tablespoons flour  
Pinch of salt  
1 teaspoon vanilla  
4 eggs (yolks and whites beaten separately)

Add the butter previously creamed with the two tablespoons of sugar to the bread crumbs. Blend these three ingredients and place on the bottom of a baking dish.  
Cream the cup of sugar with the cream cheese until well blended, add the flour, salt, vanilla and the beaten yolks. Mix well and add the cream. Fold in the beaten egg whites. Pour this mixture in a baking pan on top of the crumbs. Bake in a moderate oven (325) an hour or until no depression is left when touched in center with finger.

**Pumpkin Pie With Cheese Crust**  
1/2 cup pastry flour  
1/2 teaspoon salt  
3 tablespoons shortening  
1/2 pound American cheese  
Cold water

Sift together the flour and salt, work in the fat and cheese, and add enough cold water to make a stiff dough. Roll thin and line a pie tin, then fill with the following mixture:  
1 1/2 cups strained pumpkin  
2 cups milk  
2-3 cups brown sugar  
2 eggs slightly beaten  
1 teaspoon cinnamon  
1/2 teaspoon ginger  
1/2 teaspoon salt

Bake in a moderate oven.

**Cottage Cheese Pie**  
Line a deep pie plate with pie crust, and add the following mixed together in the order given.  
3 well beaten eggs  
1 cup cottage cheese  
1 cup shredded coconut  
8 tablespoons sugar  
1 teaspoon nutmeg  
2 cups milk or enough to fill the pie plate

Bake as you would custard pie, being careful to reduce the heat to insure a firm consistency.

### Her Birthday Was Indeed a Happy One

(Contributed)

September eleventh was Mrs. Mary L. Kay's birthday. Charming weather added to the enjoyment of an auto ride to Freeport where Mrs. Kay and four friends were invited by Mrs. Ethel Kay Wood to a most excellent dinner which was served in four courses. We reciprocated to the Bishop's grace—"We thank thee, Lord, for these bountiful provisions of thy providence and our abundant capacity to receive them."

Mrs. Kay wondered why the dining room table was cleared so speedily! An explanation soon followed. Twenty-one Freeport ladies had received this message to "drop in and meet my mother." All responded except five, who were obliged to send regrets.

The getting acquainted part of the program was several times interspersed by beautiful vocal solos which were accompanied on the piano and were highly appreciated. During the reception light refreshments were served to the twenty-three present from Dixon and Freeport.

Mrs. Kay was presented with bouquets of garden flowers and one of red roses—also other acceptable gifts and many cards of greetings came, by mail.

In a small package was carefully concealed the wishbone from the chicken. All the wishes came true and Mrs. Kay had a happy birthday.

### Hartshorn-Casey Wedding in Sterling

In the presence of 45 relatives assembled at the home of the bride's aunt, Mrs. S. L. Reed, 507 Second avenue, Sterling, Miss Eleanor M. Hartshorn and Frank R. Casey were married Wednesday evening, Dr. E. C. Harris of St. John's Lutheran church read the double ring service at 8 o'clock.

Preceding the appointed hour Mrs. Russell Thomas sang very impressively two appropriate selections, "Oh Promise Me" and "I Love You Truly." Miss Eunice Taylor played the wedding march. The bride couple attended by their sister and brother, Miss Laura Casey and Harold Hartshorn, stood beneath an arch arranged in one corner of the living room. Wisteria, daisies and green foliage decorated the arch, the beauty of which was enhanced by baskets of garden flowers beneath it.

The bride was beautifully clad in a gown of tan georgette crepe and accessories harmonizing. She carried a bridal bouquet of pink and white roses and baby breath. Miss Casey's attire was a frock of light green georgette crepe. Her flowers were a bouquet of pink roses.

Congratulations and best wishes for their wedded happiness were extended to the young couple following the ceremony. During the evening hours a reception was held and refreshments were served to the wedding guests.

Mr. and Mrs. Casey have both spent their entire lives in this community, where they have friends without number who wish them joy. They attended the grammar schools and also Sterling township high school. Mrs. Casey is the daughter of Mr. and Mrs. W. E. Hartshorn, and Mr. Casey is the son of Mr. and Mrs. George Casey. He is employed by the National Mfg. Co.

The young couple have gone to housekeeping at 507 Second avenue, Sterling.

### Daughters Union Veterans Meeting

The Daughters of Union Veterans of the Civil War, held a very well attended meeting Thursday afternoon in G. A. R. hall.

The usual business of the order was transacted, an invitation from the Rockford tent was extended to the Dixon organization, and especially the Drum Corps, to be present in Rockford on Sept. 16, at the dedication of a boulder and marker in honor of General Grant. Much commendation has been heard for the Drum Corps.

**WERE GUESTS OF MRS. J. B. BRENNER FRIDAY**  
Mrs. J. B. Brenner, 313 E. Fellows street entertained at her home Friday a number of her former neighbors from Pennsylvania, and all spent a most enjoyable day. The guests included Mrs. Ida Bovey and daughter, Mrs. Millard Funk and two daughters, Mrs. Ed Nettz and two daughters, Mrs. Ed Nettz, Jr., Mrs. Mollie Lampin, Mrs. Williams and Mrs. Jake Longman.

### Report of W. R. C. Meeting Is Given

The Women's Relief Corps, auxiliary to the G. A. R., met in G. A. R. hall in regular meeting Monday evening, the meeting being called to order by the president. The secretary read the minutes and the treasurer's report was accepted.

The relief committee met with Mrs. Stauffer, General (Dixon) J. B. Stauffer.

A communication from Oregon Relief Corps, Mrs. Reed, president, extended an invitation to Dixon Relief Corps to visit the Oregon Corps, Sept. 23.

**Report of Reunion**  
Mrs. S. J. Mail reported on the Soldiers and Sailors Reunion held at Amboy, saying they enjoyed a splendid program. Twenty-five comrades were registered, and the Amboy Corps served a wonderful dinner. She also stated that the Daughters of Union Veterans Drum Corps of Dixon, deserves much credit for the part they took in the program of the day. The Department President was present and gave a very instructive talk, at the Amboy reunion. An election of District officers was also held as follows:

President—Miss Ella Holly, Polo, Ill.

Vice President—Mrs. Mina Hettler, Dixon.

Secretary—Mrs. Marie Hettler, Dixon.

Treasurer—Mrs. Maude Hobbs, Dixon.

The reunion for 1930, will be held at Polo. The entire program at Amboy was much enjoyed.

Mrs. Gus Demorest was reported ill.

Mrs. Rupert who has been ill, was reported recuperating.

At the conclusion of the business session a school of instruction was held, Mrs. Nellie Eastman acting as instructor.

Two comrades were present at the meeting, Comrade Colton and Comrade Shelhamer.

### Mrs. Gavin Dick Highly Honored

The White Shrine held a meeting last evening in Masonic Temple, and there was a good attendance. After the business meeting the members held a most delightful surprise in honor of the Worthy High Priestess, Mrs. Gavin Dick, formerly Miss Marcella Bremer. Mr. and Mrs. Dick have but recently returned from their honeymoon. A tempting two course luncheon was served, the guests being seated at an arc. Mr. and Mrs. Dick had the position of honor. The table was beautifully decorated in pink and white and green, the garden flowers in pink and white being especially pretty. There were about sixty present. There was much merriment and a number of happy toasts were given. As a further surprise to Mr. and Mrs. Dick, the White Shrine members and the Patrol team presented to them a handsome walnut triangle gate leg table, with best wishes for happiness from all. Mrs. Wilbur Leake, mother of the Corinthian Shrine No. 40, made the presentation in a few congratulatory words, and Mrs. Dick responded, graciously accepting the gift. Both Mr. and Mrs. Dick are very popular and highly esteemed young people and all join in wishing them years of happiness.

### St. Paul's Missionary Soc. Meet Thursday

The Missionary Society of St. Paul's Lutheran church held their regular meeting Thursday afternoon in the church parlors.

The meeting opened with a song "America the Beautiful," after which the president, Mrs. L. W. Walter, offered prayer.

A song "There's Much We Can Do," was sung. Mrs. Teschendorf gave the scripture lesson. Mrs. Switzer led in prayer, then Mrs. Walter introduced the subject of the lesson topic, "Learning to Live Together." Mrs. Lenox gave an interesting study of conditions of religious traits shown by emigrants in America. Interesting clippings were

### Bridge Luncheon A Charming Affair

Mrs. George Hawley and Mrs. W. W. Gilbert entertained with a delightful bridge luncheon Friday afternoon at the Gilbert home, in honor of Mrs. Frederick Rosbrook of Peoria. The attractive home was

read. Mrs. Switzer and Mrs. Winters read poems adapted to the topic.

Mrs. Lenox closed the lesson with a prayer composed by a Jewish Rabbi, a Catholic Priest and a Protestant Minister, showing we can live together in the interest of the Lord's Kingdom.

The business of the day consisted of the secretary and treasurer's reports.

The roll was called with twenty-two names, and three guests present.

Plans were made to attend a missionary meeting in Sterling Sept. 18, to hear Dr. Bener, a missionary who is here on furlough. Plans were discussed to attend a convention at Quincy, Ill. Various committees gave reports, as did Mrs. Switzer on her home on Route 2 and all spent a most enjoyable day. There were twenty-nine in attendance, including members, six neighbors and six children, and the pastor of Trinity church and his wife, Rev. and Mrs. J. L. Lobaugh. At noon a tempting picnic dinner was served to all, and in the afternoon the business meeting and a short and interesting program was given. As the shadows lengthened, the guests departed homeward, voicing their pleasure in the happy day just ended at the Berg home.

### Beautiful Early Morning Wedding

In a beautiful early morning wedding today, William Tully of Dixon and Miss Frances Helen Weller of Polo were united in marriage. At 8 o'clock Reverend Father J. J. Hackett, pastor at St. Mary's Catholic church at Polo, officiated at the impressive service which united the lives of the contrasting parties. During the ceremony Miss Annabelle McGrath sang sweetly "Ave Maria," "O Salutaris," and "I Love You Truly."

The bride was beautifully gowned in blue velvet with a hat matching. She carried blush roses. The bride and bridegroom were attended by the bride's sister, Miss Jane Weller, who wore a charming green velvet gown and hat and carried white roses, and by Raymond Drew of Harmon, as best man. Immediately after the ceremony Mr. and Mrs. Tully left for a wedding trip to Wisconsin. The charming bride who is the daughter of the late Mr. and Mrs. D. Weller of Mr. Morris, has been a successful Ogle county teacher. In two weeks Mr. and Mrs. Tully will return to Dixon and will be at home to their many friends in a home on Galena avenue. Mr. Tully is a mail carrier in this city.

### YEAR OUT OF HIGH SCHOOL, GIRL NOW IS PLANE PILOT

Washington (AP)—Miss Nancy Hopkins, who took up aviation upon graduation from high school a year ago, has become a full-fledged pilot during the year that has intervened. She is the daughter of Dr. Alfred E. Hopkins and is the niece of Charles Dana Gibson, noted artist. Miss Hopkins' interest in aviation antedated her graduation from high school, for she studied mechanics and aviation and in hours after school took courses in flying at Hoover field. She made her first solo flight about a year ago. Miss Hopkins this summer has been a hostess at Roosevelt field, New York.

### SERVANT PROBLEMS LAID TO TROUBLES IN HOME

Washington (AP)—Home maid troubles—are they servant made or home made?

Philadelphia domestic workers have set down their reasons in a survey questionnaire of the social order committee of the Philadelphia Society of Friends.

The data are being tabulated by the United States women's bureau to stroke at the root of the servant problem from the point of view of the workers.

Poor pay, shortage of food, inconvenience of location, unreasonable employers, heavy work too little recreation, misunderstandings and quarrels were among the causes listed by the maids.

### Bridge Luncheon A Charming Affair

Mrs. George Hawley and Mrs. W. W. Gilbert entertained with a delightful bridge luncheon Friday afternoon at the Gilbert home, in honor of Mrs. Frederick Rosbrook of Peoria. The attractive home was

gay with decorations of lovely garden flowers and ferns, the bouquets of pink and white cosmos being especially noticeable. There were guests for six tables. After the delicious luncheon was served, the afternoon at bridge resulted in Miss Jean Hitchcock winning the favor for high honors; and Mrs. George Campbell receiving the second favor. Mrs. Frederick Rosbrook received a dainty guest favor.

### Entertained Trinity Missionary Society

The Women's Missionary Society of the Trinity Lutheran church of Sterling, Ill., met Friday in an all day meeting with Mrs. Fred W. Berg at her home on Route 2 and all spent a most enjoyable day. There were twenty-nine in attendance, including members, six neighbors and six children, and the pastor of Trinity church and his wife, Rev. and Mrs. J. L. Lobaugh. At noon a tempting picnic dinner was served to all, and in the afternoon the business meeting and a short and interesting program was given. As the shadows lengthened, the guests departed homeward, voicing their pleasure in the happy day just ended at the Berg home.

### A NEW ONE—DO NOT WATER THE LAWN

One of the secrets of maintaining a greensward during hot, dry weather, is to avoid sprinkling at all times, especially during the first three months of the season. By allowing nature to provide moisture during that period the grass in a lawn properly made will send its roots deeply in the soil that is not sprinkled. On the other hand, if sprinkled, the roots will develop near the surface. In this latter case, unless sprinkled almost daily except in rainy weather, the grass will become yellow in patches long before the unwatered lawn shows signs of suffering.—By M. G. Kains in McCall's for October.

### HOUSEHOLD SUGGESTIONS—IRONING BOARD

With returning feminine styles, the old-fashioned sleeve board is an essential for good ironing. You can slip shoulders, flounces, labors, peplums and other intricate parts of a frock over these little boards with excellent results.

### CLOTHES LINE—To keep new clothes lines from tangling, soak them, before using, in cold water and then bring to a boil and cook a few minutes. This also lengthens the life of the line.

**GRILLED TOMATOES**—A nice lunch can be made inexpensively from grilled fresh tomatoes served on toast with hot cheese sauce poured over at serving.

### TO HEAT THE OVEN—Two minutes after lighting the burners of the gas stove, open the oven door for a second or two to allow the moist air to escape and the oven will heat much quicker.

**USE FOR VINEGAR**—Dip your grate or stove cleaning cloth in vinegar before the black lead is applied. This will remove all grease stains.

### COLOR IN VEGETABLES—Vege-

tables retain their color and are crisp and tender when a teaspoonful of borax is added to the water in which they are boiled.

### VINEGAR IN CLEANING—When cleaning windows a little vinegar added to the water will produce a brilliant polish.

**FOR "FLAT FEET"**—Housewives, hospital nurses, shop clerks and others menaced by "flat feet" should practice rising on the ball of the foot, holding each foot on the heels slowly several times a day, about a dozen times in succession.

**PERSPIRATION MARKS**—To remove perspiration marks from white silk, mix some bicarbonate of soda to a stiff paste with cold water. Spread thickly on the parts and leave for an hour or so before washing. This also will remove scorch marks if they are not very bad.

### WASHING HANDKERCHIEFS

Add one tablespoonful of peroxide of hydrogen to the water in which handkerchiefs are washed. This will keep them white and will also remove any fruit stains.

### CONTRARY CAKE—When a cake sticks to the pan, dip the bottom and sides of the pan in hot water and the cake will be loosened.

## ARISTOCRATS OF THE AIR.

The recent National Air Races were instructive as well as spectacular.

One of the most impressive things about them, however, was a thing that most of the spectators barely noticed.

Each day, while dozens of army and navy planes were performing hair-raising stunts in front of the crowded grandstands, with scores of other planes waiting, on the ground, for their turn to go up and make some new thrills, there was a steady stream of planes taking off and landing on a remote section of the airport, away from the crowds.

These planes came and went without making any fuss. Nobody gathered around to watch them. No excited spectators mobbed their pilots to ask for autographs. No photographers made life miserable for them with clicking cameras.

These planes weren't taking part in the great exhibition that had drawn the crowds. They were just the airmail planes—leaving the airport, day and night, for distant points, just as they had been doing for months before.

They weren't in the show at all. Yet it is a question whether any part of that spectacular exhibition was quite as impressive as the sight of these airmail ships, leaving and arriving on regular schedule, in a vacant field behind the place reserved for the dare-devils.

The races were a great show. Lindbergh, Williams, Doolittle and others did things with airplanes that were positively incredible. The finest pilots of the army, navy and marine corps went through complicated maneuvers with amazing skill. Three Canadian officers came down and made 50,000 spectators gasp with their consummate skill and daring.

All of this was valuable. It surely proved that the airplane is a pretty reliable proposition, to say the least.

But the men who didn't get the applause—the airmail pilots—were, to our notion, the men who were really proving the airplane's worth.

Every hour of the day and night one or another was taking off on his regular round. One man would head east for the perilous climb over the Alleghenies. Another would point the nose of his plane for Buffalo and Albany. Another would swing south to the Ohio river valley; another would head west for Chicago, carrying a cargo that would be on the Pacific coast 36 hours later.

Every day and every night through the coming fall and winter these men will be doing the same thing. While we are safe in our homes, on bitter stormy nights, they will be soaring along through the darkness to carry the mail. Once in a great while one of them will be killed. They didn't get any medals or big headlines at the air races, and they won't get any now; but they're doing more for aviation than all the dare-devils put together.

The airmail men, in short, and not the stunters, are the real aristocrats of the air. The big job isn't always done by the chap who gets the most glory.

## THE DEMOCRACY OF GOLF.

Golf used to be considered a recreation for rich men—for rich men and for men who were too feeble to perform any hard manual labor.

Now, however, golf seems to be the most democratic game there is.

The New York, New Haven and Hartford railway held its annual employees' golf tournament the other day at New Haven, Conn. President John J. Pelley was one of the two men to win top honors, having a low gross score of 78. And the man he shared the top perch with was none other than Jack Garrity, fireman on the Shore Line express, who turned in a low net of 67.

The democracy of the links seems to be a genuine thing. Incidentally—who would have thought, a score of years ago, that a railroad fireman would ever be able to win top place in a golf tournament?

## THE CHANGES OF 70 YEARS

It is interesting to note that just 70 years ago the 25th of this month the first producing oil well in the United States was drilled in Pennsylvania.

Seventy years—precisely the Scriptural "three score and ten" of the average lifetime! The results that have followed on the drilling of that first well are almost incalculable.

We are a motorized nation—which means, of course, that our economic and social machine could not function without oil. That one well has multiplied to more than 325,000. Oil has completely changed our entire life. Somehow, it seems as if that first well ought to have some kind of tablet in memorial. It was the beginning of a new era.

That Biblical quotation about all being vanity suggests that even in those days there must have been people who refused fried chicken, corn on the cob and home-made ice cream so they wouldn't get fat.

## THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KNECK

(READ THE STORY, THEN COLOR THE PICTURE)

The wooden cow at first stood still. The Tines thought that it would spill, and maybe break a leg or two. It seemed a clumsy thing. But there it stood and moored just once. Then Clowdy cried, "Say, it's no dunce. It's mooring for a drink, I guess. Let's try and find a spring."

The old man laughed. "Ho, ho, he, he." And then he said, "Why can't you see that this cow is a wooden one? He cannot drink or eat. He's solid wood from tail to head. That's why he never will be fed. But I can make him run around or stand still on his feet."

"Oh, goody, goody," Coppy cried. "Perhaps he'll take me for a ride. I'd love to hop up on his back and gallop 'round about." The other Tines, like this thought and in its spirit they were caught. "We also want to try a ride," they all began to shout.

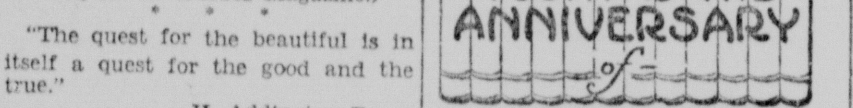

The carpenter cried, "Wait, now, boys. There is no need for so much noise. I promise that you all shall ride before it's night. We'll see who's best and who is worst. Of course we'll let Coppy be first. He was the one who asked me first and that seems only right."

The bunch agreed that this was fair. In fact they really didn't care who tried it first as long as they could share right in the fun. "Hop on the cow," the queer man said. "Then hang on tightly to his head." So Coppy ran right up and 'twas no sooner said than done.

The cow seemed puzzled for a while, and then it almost seemed to smile as if to say, "I'll show this lad a startling thing or two." It kicked its feet in the air and gave poor Coppy quite a scare. He looked around quite puzzled 'cause he knew not what to do.

## Daily Health Talk

By HORACE W. SOPER, M. D.  
St. Louis, Missouri

(This series of articles is prepared under the direction of the Gorgas Memorial Institute, which is organized to perpetuate the life work of the late Major General Gorgas in preventing unnecessary illness. Headquarters of the Institute are at 1331 G Street, N. W., Washington, D. C.)

The evil consequences of under-nutrition have been pointed out to many of us who need such counsel, but I am sure that it is of utmost importance to an equal number that the subject of overnutrition or the bad effects that follow too much food intake be given attention.

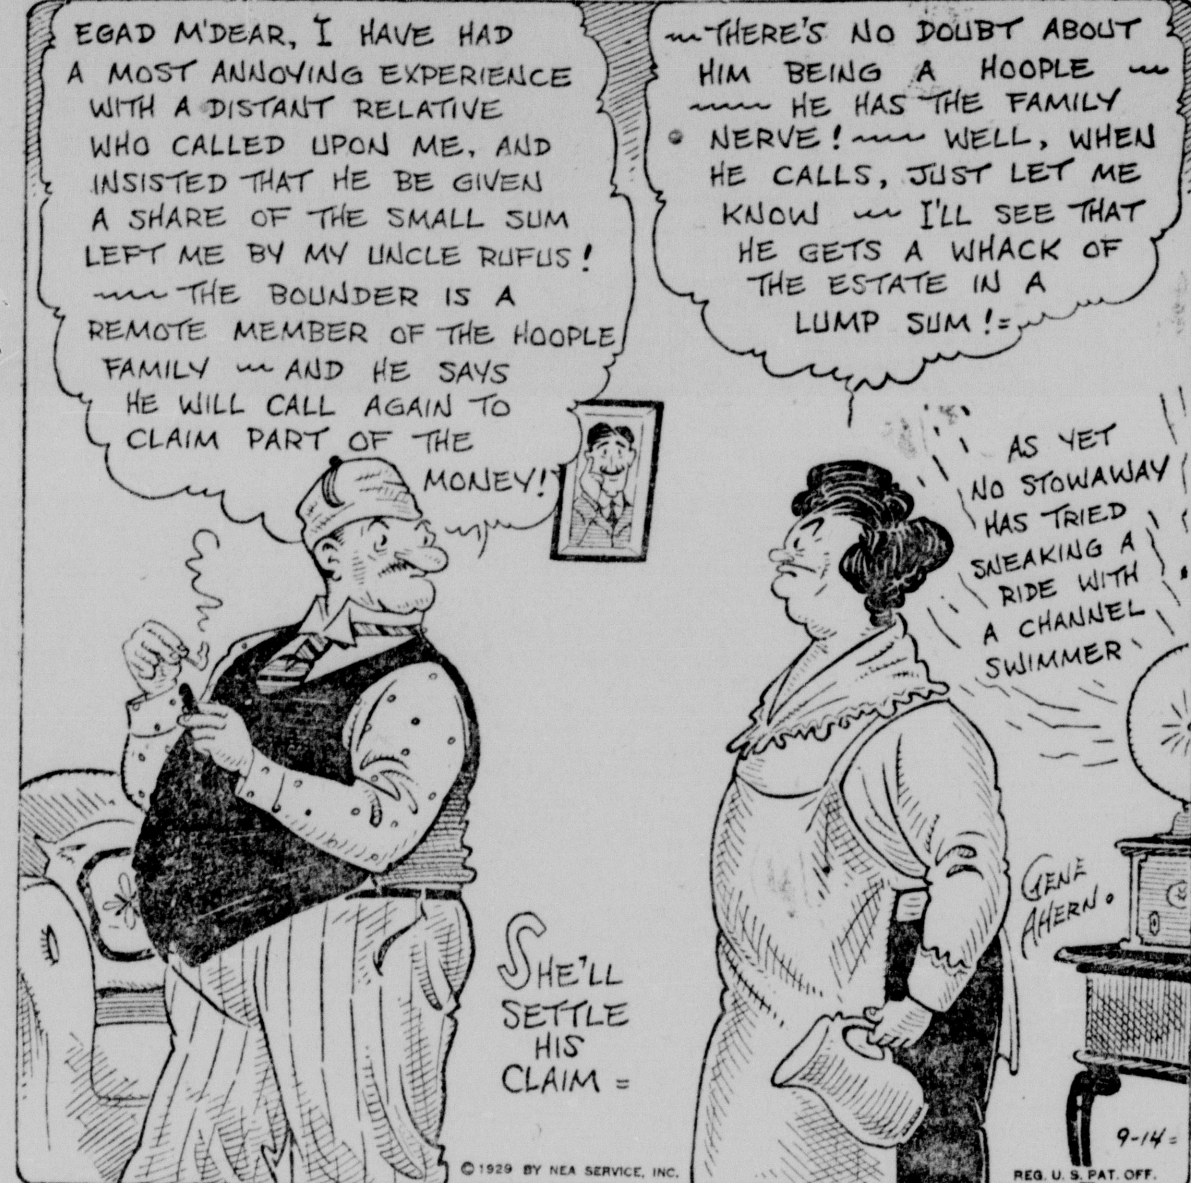

The growing child requires relatively a larger amount of food particularly the protein such as meat, eggs and milk. Children should be taught the principles of a well balanced diet but it is not wise to restrict them as to quantity. The adult requires a smaller amount of protein. A safe rule is to eat flesh food in moderation once daily, whether it be fowl, fish, pork, mutton or beef. As age advances the food protein should come largely from milk. Excessive eating of flesh foods throws too great a strain on the organs of elimination and kidney and arterial diseases result.

Few people eat too much fat. The body fat is produced largely by sugars and starches. The quantity of sugar consumed by the American people is considered far too large by many and is believed to be responsible for many cases of obesity. Overweight may be caused by glandular disturbances that may require special treatment, but by far the large majority of cases of obesity are produced by eating too much food. Joslin and other eminent authorities have pointed out that the obese individual is especially prone to develop diabetes. The excessive use of sugar also causes digestive disturbances.

A moderate amount of body fat is essential to good health but one should watch against excess fat. The waist measurement should never exceed that of the chest. The chest figures should be about four inches in excess of the waist line. When the weight increases unduly restrict the amount of sugar and

starches in the dietary. Do not stop them entirely and do not stop cream and butter, but use less of them. It is found that many patients assert that they eat no sugar but upon investigation it is learned that they eat freely of stewed fruits and jellies that contain a large amount of sugar.

Cultivate a habit of correct posture and deep breathing. Take abdominal muscle exercises. Swimming is a wonderful exercise to produce a smooth and equal distribution of body fat. The ideal objective in a rational weight reduction system is to maintain a good state of health and at the same time take off the excess fat. The reduction should be gradual. Try to strike a balance between physical exercise and the quantity of food ingested. If undue fatigue follows exercise your food is insufficient. When attempting to reduce weight, rely upon food reduction and physical exercises. Do not resort to drastic sweating and the use of purgative drugs.

## GIRL JAILED AS BOY

El Paso, Texas, Sept. 12.—(UP)—

Resembling a boy so closely that she spent a night in the men's ward in the county jail here without anyone discovering she was a girl, Anita Devall, 19, who said she was the daughter of a New York broker, confessed to police today that she had travelled for several years in her masculine disguise.

She said an aunt, Miss Antonia Yznaga, lived in New York City and another aunt, Mrs. Jackson Butler, in Los Angeles.

Charged with vagrancy, the girl told police she attended Carnegie Heights on-the-Hudson and Ward Belmont, exclusive finishing schools before starting on her hobnob trips. She was married in Caraan, Mexico, in 1927, to a stunt flier who later was killed in a parachute jump, she told police.

## A THOUGHT FOR TODAY

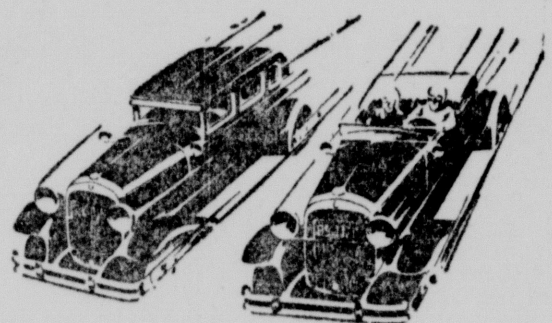

Thou therefore which teachest another, teachest thou not thyself? thou that preachest a man should not steal, does thou steal?—Romans 2:21.

Men trust rather to their eyes than to their ears; the effect of precepts is therefore slow and tedious, whilst that of examples is summary and effectual.—Seneca.

## ESSEX THE CHALLENGER

first prize  
for reliability

The Grand Prize for reliability in the 15-day running of the famous "Tour de France" was awarded to Essex the Challenger. The two Essex entries finished the race without a single penalty—the only cars with perfect scores—winning by a great margin over the strong field of high-priced American and European cars. . . . Not only the Grand Prize, but the Ansaldo Cup, for quick getaway; the Lyonnais Cup, the Pyrenees Cup, the Atlantic Cup, the Cup of Brittany, the Cup of Normandy and the Cup of the North were also taken by Essex the Challenger.

## Performs Like a Costly Car Because Built Like a Costly Car

Essex the Challenger looks and acts like a costly car because it is built like a costly car. Its enormous success has inspired others to claim qualities "like Essex". Yet everything about it—appearance, performance, comfort and luxurious smoothness—mark it apart and altogether different.

To be like Essex without building like Essex is a goal no car has found possible. More than 200,000 owners know the outright facts. You can know them too in 30 minutes behind the wheel.

You can only find comparison for Essex qualities among costly cars, because in design and construction it stands with the practice of the fine car field.

## All These "Extras" at No Extra Cost

Its good size and impressive appearance appeal to those who want comfort, distinction and good looks. Its completeness in the things which contribute to costlier car advantages, is outstanding. Radiator shutters—side lamps—chromium plated bright work—four hydraulic shock absorbers—adult size roominess and adjustable seats are details only costlier cars have provided.

## THE BUY-ILLINOIS PRODUCTS PROGRAM COMMITTEE NAMED

### Governor Appoints Rochelle Man on Commission

Springfield, Ill., Sept. 13.—(UP)—Eugene Funk, Bloomington, was appointed chairman of the Buy-Illinois-Products-Commission, created by the last general assembly for the purpose of extending the sale of Illinois products, by Gov. Louis L. Emmerson here today.

Other members of the commission are:

Merle Slane, Peoria, manufacturer and newspaper publisher.

Harry E. Scheck, Chicago, president of the Chicago Trades Union Label League for Cook County and representative of the Chicago Federation of Labor.

W. C. McQueen, Elgin, dairyman.

George W. Reed, Chicago, vice-president of the Peabody Coal Co.

Edward A. Wiek, East St. Louis, coal miner and secretary manager of the Illinois coal sales commission.

Ralph Brown, Rochelle, president of the Midwest Canning Co.

Frank H. Simpson, Flora, distributor of perishable farm products.

A. H. White, Lawrenceville, president of the Indiana Refining Co., and member of the Illinois Chamber of Commerce.

Clarence F. Buck, Springfield, director of the state Department of Agriculture and ex-officio member of the commission.

George C. Wharton, newspaperman, Chicago, is secretary of the commission.

The commission will make an extensive study of the agricultural situation and mining and trade conditions as they relate to all industries of the state with a view to the development of Illinois industries to encourage citizens to buy the state products.

## Roosevelts Present Rare Panda Skin to Museum

Those globe-trotting Roosevelt boys, back in the United States after adventuring and hunting for several months in the wilds of Tibet, Indo-China, are shown above exhibiting one of their prize collections of the expedition—a rare panda bear skin, approximately six feet long, and believed to be the first ever taken by a white man. Above, left to right, are Colonel Theodore Roosevelt, Suydam Cutting, photographer of the expedition, Stanley Field of Field Museum, Chicago, to which the skin and other trophies were presented, and Kermit Roosevelt.

(Continued from Page 1)

width, the excavation necessary would be approximately 40,000 cubic yards, all of it of loose material, sand, mud and gravel. The engineers' estimate of cost on this dredging was \$50,000 with "no engineering difficulties whatever". The course of the channel for the 10 1/2 miles of free river up to Lord's farm, meanders from side to side from Lord's to "Reynoldswoods" it hugs the northerly bank, thence it crosses diagonally to southerly bank alongside of the I. N. U. company's steam plant. At the new bridge it passes between the third and fourth piers from the south side. At the Galena Avenue bridge it passes between the first and second piers. The War Department has enforced the necessary clearance of 12 feet on all bridges below and at Dixon; also on the new

water main, now being laid, requiring 7 feet depth below low water mark.

The lock is located at the north end of the I. N. U. company's new hydro plant. Dimensions of all 10 locks on the improvements are 310 feet long, 35 feet in width. The guard walls at our lock will extend almost to the Galena Avenue bridge. The Tail water at the dam will be lowered two feet. Above the dam the channel is on the south side of Island Park and skirting the Medusa Current plant and on to Grand Detour where either a lift of 14 feet or 24 feet is yet to be decided.

Barges of 500 tons capacity of steel construction, drawing light, 12 to 14 inches, will be used. In a 7 ft. canal the draft permitted would probably be 5 feet, 8 inches.

The cost in 1913 was estimated at \$2,603,261. Credits were estimated at \$2,100,000. "Net final cost to the United States of the navigation project \$503,261". Maintenance cost for completion 5 years. "Construction to be carried on from the lower end." In 3 months after dredging begins at Lord's farm, barges from or to Dixon, could leave or arrive with loads from or to any port on the seven seas.

The upper Mississippi-Grafton to Minneapolis channel is only 6 feet in depth.

The channel of the Missouri to Sioux City now being improved at a cost of \$12,000,000 is of 6 ft. depth.

Major-General Jadwin, chief engineer of the army, said after a very recent trip of inspection of the Hennepin Canal. "The finest Canal in the United States."

War torn France has just completed a canal 802 miles long, from Marseilles on the Mediterranean Sea to Calais on the English Channel.

The state accused them of the murder of a man, Barishnikov, ascribing jealousy as a motive.

## Sister of Dixonite Dies In Whiteside Of Heart Ailment

Prophetstown, Sept. 11.—Mrs. W. J. Thompson, well-known resident of this city died in her home in this city at 4:30 yesterday afternoon, following an illness of five months of heart disease.

She was born in Marengo, Ill., the daughter of Mr. and Mrs. F. C. Fillmore. She was married in Chicago to William J. Thompson. They have resided in this city the last eleven years during which time they have conducted a millinery and ready-to-wear store.

Mrs. Thompson was a member of the Methodist church and the Order of the Eastern Star. She served for a number of years as worthy matron in the Eastern Star.

Survivors include the widower, Alderman W. J. Thompson of this city; one sister, Mrs. R. W. Thompson of Dixon, Ill., a granddaughter, Mrs. T. W. Shutterworth of Chicago; and a grandson, Wilbur J. Thompson of Chicago.

Two sons and a daughter preceded Mrs. Thompson in death.

Funeral services with Eastern Star rites, will be held at 2:03 tomorrow afternoon in the home with the Rev. L. V. Sittler in charge. Burial will be in Riverside cemetery.

—Moline Dispatch.

Mrs. John S. Hauser, Mrs. Alfred Nichols, Mrs. Marietta Price, Mrs. Lillian Benjamin, Mrs. W. F. Strong, Mrs. Wilbur Hutchinson, Mr. and Mrs. H. A. Ahrens, Miss Marion Ahrens, and Mrs. F. W. Oesterheld, from Dixon, were in attendance at the funeral.

### FAST BOAT TIME

Venice, Sept. 14.—(UP)—The power boat Miss America V, owned by Gar Wood of Detroit and driven by Philip Wood, completed four laps of the measured mile in the fast time of 45 4-5 second here today.

The craft grounded yesterday with Crown Prince Humbert aboard. The broken propeller which caused the mishap was hastily repaired, enabling the Miss America V to enter today's competition for the Count Volpi cup.

## May Put Religious Fanatics On Prison Island In Canada

Victoria, B. C., Sept. 1.—(AP)—Segregation of Doukhobors by the Dominion government in an island prison colony has been suggested by the authorities of British Columbia.

Disturbances arising from the practices of the Doukhobors of holding nude processions and their defiance of school laws have resulted in nearly 200 of them being jailed and a number of their children being committed to public institutions.

The plan for a prison colony on Darcy Island in Georgia Bay has been placed before Dr. J. H. King, Dominion Minister of Health, by provincial authorities who contend that the disposition of fanatical groups among the sect is a dominion problem.

The Doukhobors were brought into the provinces of British Columbia, Saskatchewan and Alberta by the Ottawa government under contract. None of the provinces, officials pointed out, could deal with the situation adequately.

Darcy Island was suggested as the site for such a colony because escape is almost impossible.

## Building Lockers In School House Walls

Several workmen from the plant of the Fisher Manufacturing company of Charles City, Iowa, are in Dixon, engaged in installing the locker and cabinet system at the new high school building. Every student in the high school will have a metal locker and special lockers have been provided for the gymnasium department. Through the hallways, the system of lockers are built into the walls and are flush.

In the various class rooms, cabinets for the storage of text books and supplies are also being built into the walls. Work is progressing rapidly on the interior of the new building and the locker system will be completely installed next week.

## Finds Children After Searching Five Years

Chicago, Sept. 14.—(AP)—Five years ago Earl P. Moody's wife

deceased from Moline, Ill., with his two sons, Harold, 3, and Anthony, 1-year-old.

For five years Moody searched for his boys and found them yesterday in a children's home at Alton, Ill. But the find did him little immediate good for the officials of the home would not even let him talk to the boys.

Judge Michael Feinberg in circuit court today issued a writ of habeas corpus, compelling the Alton institution to bring the boys into court so the judge may decide whether the father may have the boys.

Harold and Anthony were first placed in a home in St. Louis, October 14, 1923.

Moody divorced his wife in 1926 for desertion and has since remarried.

### GRIFITH IN CHICAGO

Chicago, Sept. 14.—(AP)—Jerry "Tuffy" Griffith of Sioux City, Ia., who wrecked the German heavy-weight threat in the person of Dr. Ludwig Haymann Thursday night, will clash with George Cooke, Australian heavy, in one of the ten rounds on the Chicago Stadium card September 20.

Griffith's four round victory over Haymann boosted him into two matches at the Stadium, the Cooke meeting, and one in November, for which promoter Paddy Harmon is attempting to sign Paulino Uezudun.

### NEW WORLD'S RECORD

New York, Sept. 14.—(UP)—Ho! Toddy, Mrs. K. E. Hitt's four year old gelding, set a world's record of 1 minute 48 2-5 seconds for a mile and a furlong in the Lexington handicap at Belmont Park yesterday. Peanuts set the former record of 1:48 3-5 at Aqueduct, September 18, 1926.

Nuskanen, a four year old Sun Briar colt, set a track mark of 1 minute 10 seconds for six furlongs in the third race. The former record was 1:10 2-5 made by Fair Phantom, September 4, 1923.

The Church of Scotland was established in 1550 and confirmed in 1688. It is presbyterian, the ministers all being of equal rank.

## KEEN COMPETITION AMONG LEADERS IN MAJOR LEAGUES

### Lefty O'Doul of Phillies In National League Leads All

New York, Sept. 14.—(UP)—With Frank (Lefty) O'Doul, Phillies' outfielder, gradually pulling away from Babe Herman of Brooklyn in the National League race for individual batting honors, interest is centered on the three-cornered duel between Jimmy Foxx and Al Simmons of the Philadelphia Athletics and Lew Fonseca of Cleveland for the American League batting leadership.

O'Doul, batting .396, has a ten point lead over Herman, who has slumped to .386, according to the United Press averages through games of Thursday, September 12. Foxx holds the American League plummage by a scant one point margin over Fonseca, with Simmons trailing the Indians' first baseman by one point. Foxx is hitting .369, Fonseca .368, and Simmons .367. Lefty Grove, Athletics' southpaw, and Guy Bush, Chicago Cubs' right-hander, continue to hold the lead among major league pitchers. Grove has won 20 games and lost four, while Bush has won 18 and lost five. Tom Zachary, veteran New York Yankees' southpaw, and Ed Rommel, Athletics' relief pitcher, have better averages than Grove, but have not participated in as many games. Zachary has 10 victories and no defeats to his credit and Rommel has won 11 games and lost two. Other major league leaders follow:

## THE SCOREBOARD

By WILLIAM J. CHIPMAN  
Associated Press Sports Writer  
The gaunt form of Cornelius McGillicuddy, familiar figure in baseball ready again to lead a triumphant force in search of world series gold.

A victory over the White Sox by 5 to 2 at Shibe Park yesterday, as the Yankees lay idle in rain brought the House of Mack to within two games of certain victory. Truce is in prospect by nightfall. Another Athletic triumph over Chicago today and the loss of either game by the Yankees would end it. A reverse for the Macs probably would deprive them of the satisfaction of clinching their own flag, as the Yanks doubtless would do it for them in one of the games against Cleveland Sunday.

The ex-champions are no great hands at winning double-headers, but neither are they so prone to lose two in one day. The most logical expectation of the Hugenmen over the weekend is an even division of their two bargain bills.

The Athletics stopped the White Sox yesterday only after young Ed Walsh had given them a bad run of seven innings. Two early runs, one of them scored on a homer by Boley, were nullified by Jimmy Dykes' fourth-inning fumble, which paved the way for two Chicago markers and a tied score.

Facing Ed Walsh in the eighth with two Athletics on base, Al Simmons pounded the ball into the stands with his thirteenth home run, which sent the A's home ahead by 5 to 2. Walsh gave only six hits, but Simmons and Bishop got triples and Simmons and Boley home runs. Howard Ehnke got credit for the victory, but Bob Grove pitched the ninth after a pinch batsman had relieved the tall right hander in the eighth.

The Yankees darkened their stadium on a technical charge of rain, building up a double header for today, and the Senators nosed out the Indians by 4 to 3. The Red Sox and the Tigers had an open date. The reverse in Washington left the ambitious Indians only one and one-half games ahead of the equally ambitious Browns in the scramble for third money.

The clinching of the National League pennant by the Cubs was postponed yesterday when the rejuvenated Phils weathered a nine-inning assault to win by 7 to 6, and the second-place duel of the Pirates and the Giants was halted by rain at Forbes Field. The game cannot be played off, but neither team profited or lost by the cancellation since both were involved in the cancellation.

After piling up seven runs against Sheriff Blake before he departed with none out in the eighth the Phils entered the last of the ninth with

a margin of 7 to 5, and Phil Collins performing heroically in a relief role. Then with one out, Rogers Hornsby hit his thirty-sixth homer and Wilton and Cuyler singled. Out went Collins with 30,000 fans creating a bedlam, and in came Willoughby. The Philadelphia ace retired Stephenson on a grounder, but both runners advanced, and Willoughby thought it best to pass Tolson to make a force at every base. The star of Burt Shotton's staff then caused Taylor to ground weakly to the infield, and Tolson was forced, ending the game. The ultimate triumph of the Cubs thus was postponed for a day, and the Phils remained within half a game of the fifth-place Robins who defeated Cincinnati by 4 to 2.

St. Louis assaulted the Braves for two victories by 3 to 2, and 5 to 3, to round out the National League program.

## Dixon Shoe Tossers Plan To Enter R. I. Tournament Sept. 22

Some of the leading horse shoe tossers of Dixon and vicinity will enter the first annual western Illinois championship horseshoe tournament to be held at Prospect park in Moline, Sunday, Sept. 22. Tossers from Rockford, Freeport, Rochelle, Keokuk, Joliet, Moline and Rock Island have started the entry list and invitations have been received by many of the tossers. Others who have not received notice of the tournament are requested to enter as early as possible.

Eight of the finest clay courts in the quad-cities are available for the meet and Moline enthusiasts who are sponsoring it, look for a record entry list.

In order to qualify for the finals, players who enter will throw 100 shoes for points, the ten high men to play in a round robin for the championship. Title games will be of fifty points duration. The qualifying round will start at 8 a. m. and continue until 1:30 p. m. Finals will start at 2 o'clock.

Each court will have an official scorer in the finals.

The entry fee is one dollar and the tournament is restricted to Illinois players only.

## Shires About Through As White Sox Player; He Soaked Manager

Chicago, Sept. 14.—(AP)—Charles Arthur (The Great) Shires, the White Sox first baseman, probably has taken his last sock as a Sox player. Manager Lena Blackburne indicated at Philadelphia today that he is all fed up on being on the receiving end of the great Shires' punches.

Shires was suspended last night for violation of training rules and after he and Blackburne had engaged in fistfuffs, Lou Barbour, club secretary, who sought to be a peacemaker, came out with a cut lip.

Blackburne, according to dispatches from Philadelphia where the Sox are playing the Athletics, sought to reprimand the self-designated great

## Whitney Colts Are Favorites In The Futurity Today

New York, Sept. 14.—(UP)—Harry Payne Whitney's two-year-olds, Boonum and Whiccone, dominated the field of 12 juveniles nominated for the fourth running of the world's richest stakes, the Futurity, at Belmont Park today.

Linked as an entry they were quoted at the prohibitive odds of 1 to 3, with very little money against them. Followers of the turf were ready to concede that Whitney would be richer by at least \$104,890 after the race, that being the winner's share of the \$124,390 gross.

Boonum, although beaten by Whiccone on a muddy track in his last start, is generally considered to be the most promising of the pair and was the popular choice.

The race is to go six and three quarters furlongs over the wider straight-away course and the Whitney Colts will have a chance to break the record of 1:19 for that distance set by last year's Futurity winner, High Strung.

## FOOTBALL RULES

Chicago, Sept. 14.—(AP)—How they will call 'em today was before officials who will handle Big Ten football this fall at the annual rules interpretation meeting.

The officials were to standardize rulings on questions presented by Big Ten coaches through Coach A. A. Stagg of the University of Chicago. Stagg and Coach Glenn Thistlethwaite of the University of Wisconsin were to talk on rule changes.

The international fumble back of the goal line and the recovery of fumbles were prominent points for discussion.

## Drink Crazed Man Finally Started To- ward Home Again

Shelbyville, Ill., Sept. 14.—(UP)—Joseph Creighton, 30, Santa Monica, Calif., continued his journey home today after being treated for minor injuries received when he leaped through a window of a Big Four passenger train near here yesterday. Armed with a club, Creighton held a sheriff's posse at bay for several hours. The officers finally captured him in a corn field.

Creighton told officers that he was on his way home after visiting in New York, and that he had met a friend in St. Louis, Mo., with whom he had imbibed a few drinks.

Creighton said his memory left him and that he was unaware of his actions until confined in jail. He had a ticket from St. Louis to Albany, N. Y., and a bus ticket from St. Louis to the west coast and ten dollars in his possession.

Authorities notified Creighton's wife and she wired him money to complete his homeward journey.

## FANCY WRITIN' NO HELP TO SEEKERS OF SERIES SEATS

### Some Ingenious Schemes Devised To Get Base- ball Tickets

Chicago, Sept. 14.—(AP)—Rhymes and jingles, pathetic pleas and personal notes accompanying applications for world series tickets are not a bit of help to the applicant—but they do help to brighten the labors of the Cub office force.

Any letter of application opened and found to be in proper order will be filled. Thousands of envelopes will not be opened and the attached literary or art offerings never will be seen.

Fifty girls, divided into two shifts, today were far behind the 100,000 applications received during the first two days of sale of seats for the Cub-Philadelphia world title battle, and indications were that they never would catch up. More applications were arriving at the rate of five deliveries a day, along with hundreds of special delivery and registered letters.

Despite the feverish rush, there was time for showing around samples of what the fans believed would help them to obtain seats.

One applicant sent in three sheets of cardboard, festooned with 86 ran checks, collected during the last three years, accompanied by a plea that such loyalty surely deserved series seats. He got them.

An example of confidence in the Cubs was manifested in an application which the sender had mailed on the Graf Zeppelin, giving it a trip around the world before it reached the Cub offices. It was mailed much too early—the rule being that no application might bear a postmark earlier than September—but was being given consideration.

Still another cunning, and apparently prosperous, applicant sent in 14 separate letters with check totaling \$554.40, hoping at least one would be drawn from the bag. His case also was under consideration.

A wealthy Chicagoan sent a check to William Wrigley, Jr., owner of the Club, asking for 30 reserved seats for the opening game. Inasmuch as only two tickets will be sold to each individual, the check was returned with a note that Mr. Wrigley had nothing to do with the disposal of seats. The check and request then was sent to President William L. Veeck, but again was returned with a similar comment.

## Eddie Collins Played In World Series 1910

Philadelphia, Sept. 14.—(AP)—"If and when," as the brokers phrase it, the Philadelphia Athletics line up against the Chicago Cubs in the approaching world series, Edward Frowbridge Collins will be the only man eligible to play who was a member of the famous Athletics of 1910-14. In those days "Columbus Eddie" was the scintillating second sacker for the White Elephants, the Mackmen whom Manager John J. McGraw characterized as "the best world series players I ever saw."

Now he is field manager for Connie Mack and eligible to take his regular place in the game if necessary.

Nineteen years have slipped by since the Athletics and the Cubs tangled in a world series, for it was in the fall of 1910 that Mack led one of his greatest teams into battle for the baseball championship of the universe.

Of all the band that sent the late Frank Chance and others of the Cub machine reeling into defeat, Collins is the only one who remains

## Mattoon Girl Made Courageous Attempt At English Channel

Dover, Eng., Sept. 14.—(UP)—Mrs. Myrtle Huddleston, American endurance swimmer, abandoned her attempt to swim the English channel today after coming within seven miles of her goal, Cape Gris-Nez, France. She went to bed here shortly after a tug brought her back to shore.

## Congressman Kvale Bought Dynamite On Day Before Death

Fergus Falls, Minn., Sept. 13.—(AP)—Congressman O. J. Kvale, whose body was found in the ruins of his burned cottage 28 miles from here Wednesday, purchased 10 sticks of dynamite the day before his death, county authorities learned today.

The Congressman told a clerk at the hardware store here, where he purchased the dynamite, that he "intended to blow stumps on his farm."

Authorities today sought to learn what became of the dynamite purchased by Mr. Kvale.

## School Boy Kills A Girl, Then Himself

Port Angeles, Wash., Sept. 13.—(AP)—Angered because Helen McClaine, 13 years old Joyce school girl, had told a school bus driver on him when he took her book and threatened to tear it, Jesse Spurrin, 16, Joyce high school student, lay in wait for her and killed her with a rifle. It was learned today. The shooting occurred last night.

A posse from the sheriff's office later found the body of the boy 200 yards from where he had killed the girl. He had been shot through the head with his own rifle.

Drive America's finest medium-priced automobile

and learn what a difference there is

Nowhere is the impressive superiority of today's Oakland All-American Six more clearly revealed than in its remarkable performance.

Oakland's engine has, among other features, the large piston displacement necessary in developing high power at the moderate engine speed essential to long life—the Harmonic Balancer to neutralize torsional vibration in the crankshaft—rubber "biscuit" mountings to insulate it from the frame and make it incomparably smooth and free from vibration.

Drive this car—and learn what a difference these features make. We will prove to your complete satisfaction that today's Oakland is America's finest medium-priced automobile.

## Why Oakland is unrivaled in performance at its price

The following facts were obtained from a comparison of the Oakland All-American Six with 20 other medium priced automobiles. All told, 878 individual comparisons were made. Of these, Oakland proved to be distinctly superior in 451 or 51.37 per cent. The 20 cars combined were at best equal to Oakland on 382 or 43.50 per cent. And 13 of the 20 were higher priced than Oakland.

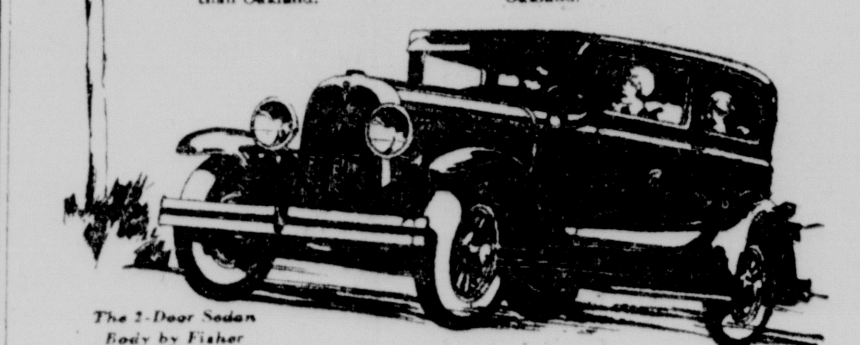

**RUBBER ENGINE MOUNTING**  
Only Oakland in the entire field employs rubber "biscuit" mountings. While other make rubber mountings, none offers such resilience and permanent freedom from vibration as Oakland.

**HARMONIC BALANCER**  
Only Oakland and one other car in the field have the Harmonic Balancer. Of 13 cars using some other device, 11 are higher priced than Oakland. Oakland's crankshaft is fully counterweighted. The crankshafts in nine higher priced cars are not counterweighted at all.

**PISTON DISPLACEMENT**  
Oakland's 228-cubic-inch piston displacement is greater than 12 of the 20 cars in its price field. Of the 8 remaining cars, 7 are much higher priced than Oakland.

**G-M-R CYLINDER HEAD**  
Only Oakland and one other car in the field use the G-M-R cylinder head. Sixteen have no type of non-distorting cylinder head whatsoever, although 11 of the 16 are more expensive to buy than Oakland.

**CRANKCASE VENTILATION**  
While most cars in the field have crankcase ventilation, only Oakland and one other, according to available information, have any method for cleaning the air. Six have not, although three of the six are higher priced than Oakland.

Obituary

Charles Howard Webb, son of the

late Mr. and Mrs. John Webb, was born in Franklin Grove, Feb. 17, 1874 and died in Dixon at the home of his sister, Mrs. Mina Bates, aged 55 years, 6 months and 18 days. For a number of years his health has been failing and this, together with the loss of eyesight, made life a burden. The larger part of his life was spent at this place where he had many friends. After the death of his parents he went to Dixon to live with his sister, who was kind and good to him.

Besides his parents, four sisters and two brothers preceded him in death. Surviving him are three sisters and one brother, Mrs. Mina Bates of Dixon, Mrs. Margaret Buck of Long Beach, Calif., Mrs. Howie Woods, Palo Alto, Calif., and Walter Webb of Canton, Ill.

Funeral services were held in Dixon Saturday afternoon. Interment was made in the Dixon cemetery.

Miscellaneous Showers

Mrs. Arthur Brucker was a guest Thursday at the home of Miss Lorena Buck. In the afternoon a miscellaneous shower was held in her honor by the girls of her high school graduating class. The gifts were attached to streamers from a suspended umbrella and proved very artistic as well as of interest. A two course luncheon was served. The young ladies in attendance were Misses Phyllis Durkes, Leona Crawford, Jane Kelley, Pauline Trostle and Gwendolyn Blocher.

Completely Surprised

Friday evening Mrs. Wesley Herwig was reminded of her birthday anniversary when a group of seven friends completely surprised her. Five hundred was played as the evening's pleasure, at which Mrs. Roy Wendell and Charles Pyle were first prize winners, while Mrs. Henry Wendell and Beryl Beeghly were awarded the consolation. Delicious refreshments were served and all were happy and enjoyed the evening very much and departed wishing Mrs. Herwig many happy returns of the day.

Crawford; Vice President—Mrs. Hannah Conlon; Secretary and Treasurer—Mrs. Charles Howard. The club will meet tomorrow afternoon with Mrs. William Crawford.

Obituary

Mrs. Ed Schaffer of this place is mourning the death of her father, William C. Oellig, who for many years lived in this community and who passed away at the Dixon hospital where he had been a patient for two weeks. Mr. Oellig was operated upon a week ago and failed to rally from the operation being unconscious most of the time. Mr. Oellig was born July 24, 1851, in Pennsylvania and at the time of his death had attained the age of 78 years, one month and 14 days.

December 14, 1871 he was united in marriage to Miss Sadie Elizabeth Crider in Franklin county, Pennsylvania, and it was their privilege to live happily together for more than half a century, having the pleasure of celebrating their golden anniversary in 1921.

Eight children were born into this home: Francis A., who died June 1, 1893; Howard H. of Rockford; Sammie B. and Neil, both residents of Wilmette, Ill.; Earl of Rochelle, who died June 25, 1891; Ray of Rochelle and Mrs. Edward Schaffer of Franklin Grove.

In 1888 he and his good wife moved to Ashton, living first in the country and later in the village. Mr. Oellig and children were called upon to mourn the death of Mrs. Oellig on March 20, 1927. Since that time his daughter Sannie of Wilmette has made her home here the greater part of the time.

Mr. Oellig united with the Methodist church during the ministry of Rev. Fred A. Graham, January 21, 1916. He was a most earnest Christian, faithful attendant at all ser-

vices of the church. For a number of years he was honored by being made chairman of the board of trustees of the church and was a member of the official board at the time of his death. Mr. Oellig was of a very cheerful disposition and made friends wherever he went. He was a loving father and devoted to his family and his death will be mourned by a large circle of friends.

Funeral services will be held tomorrow afternoon from the late home at 1:30, and at 2 o'clock from the Methodist church, the services to be conducted by Rev. Loyal V. Stiller of Prophetstown, a former pastor assisted by Rev. Albion J. Tannen. Interment in the Ashton cemetery.

SETTLE ALIENATION SUIT

Belleville, Ill., 13.—(AP)—Michael Otto Lindenberg, East St. Louis livestock salesman who last year obtained a \$90,000 judgment against his brother-in-law, Frank J. Klapp of Belleville, in an alienation suit only to have the case reversed and remanded for new trial by the district appellate court, yesterday dropped the action. Attorneys announced that a settlement had been made outside of court. They did not confirm or deny a report that the settlement was for \$50,000.

Mrs. Lindenberg and Mrs. Klapp were sisters. After Mrs. Klapp died Mr. and Mrs. Lindenberg moved to the Klapp home. Lindenberg has a petition pending against his wife asking for an accounting of his share of \$30,000 in securities held jointly.

SAUERKRAUT KING

Springfield, Minn., Sept. 13.—(UP)—A crown of bologna, trimmed with wiener wurst, rests today on the fair if somewhat aching brow of C. D. Schmid, who claims to be the monarch of sauerkraut's devotees.

As a fitting climax to Springfield annual sauerkraut festival, Schmidt forked away 15 pounds and four ounces of the fermented cabbage to dethrone the usurper, C. M. Lautermilch of Akron, Ohio, and to turn back the aspirant, Max Schmelling, another local pride, not related to the heavyweight boxer.

"I owe my success to my trainer, Dr. K. E. Brown," Schmidt said. "He is a dentist and he promised me if I won I wouldn't have to sit in his chair for a year."

# ETHYL Comes to Town with a Greater Gasoline

The outstanding quality leadership enjoyed by PARCO GASOLINE for many years is now further advanced by the balanced addition of Ethyl compound.

Always supremely volatile, always clean and fine and free from gum and sulphur, always chock full of extra miles, always extremely powerful, this wonderful gasoline is now made absolutely silent and ANTI-KNOCK with Ethyl. Ask for it by this name:

## PARCO ETHYL GASOLINE

Never content with merely meeting the quality standards of competitive brands PARCO adheres to its policy by making Parco-Ethyl supreme in the field of anti-knock motor fuels.

Every tank car of Parco-Ethyl is submitted to rigid analysis. Then it is sold to you as a CERTI-

FIED ANTI-KNOCK motor fuel. Therefore if you want all the power, pep, speed and mileage the best gasoline can give you plus an absolute knockless performance in the highest compression motors, swing to Parco-Ethyl today and stick to it henceforth.

# Helen Hayes' Baby Not "Act of God"

Birth of a baby is not an "act of God." So ruled Actors' Equity Association in ordering Jed Harris, producer, to pay the salaries of six actors who were thrown out of work two weeks ahead of time when the play "Coquette" was closed in Los Angeles because Helen Hayes, above, featured star, expected birth of a child. Miss Hayes is the wife of Charles MacArthur, playwright.

## To Remodel Lincoln Sarcophagus

Here's how the Lincoln sarcophagus will appear when remodeling of Abraham Lincoln's tomb at Springfield, Ill., is completed. Improvements costing \$175,000 will be started in November.

## These Portland "Cops" Don't Miss

It might be a good idea, if you're criminally inclined, to stay away from Portland, Ore. The "coppers" out there know how to get their man—and with a pistol! Above are the Portland police pistol team which won the field firing match and the Harry Sobel trophy at the national rifle and pistol matches at Camp Perry, Ohio. Left to right above, are J. A. Jacques, G. G. Shaylor, Sergeant C. B. Maxwell and George A. Marshall; below, Sergeant J. H. Young, Mrs. J. H. Young holding the trophy won, and Inspector C. F. Shaylor.

## Biggest Land Plane Performs Well In Test Trials Today

Hasbrouck Heights, N. J., Sept. 13.—(AP)—Carrying 10 passengers and attaining a speed of 150 miles an hour, the new Fokker F-32, largest airplane ever built in America, made a successful test flight here today before aviation writers and technical experts.

The craft, which is the largest land plane in the world, took to the air swiftly from a muddy field and climbed steeply. Flying at less than 600 feet because of the low ceiling the plane reached a speed of 150 miles an hour and then dropped down to 100 miles as it was put through various maneuvers by the pilot, Lieut. Harry Johnson, of the army engineer test branch at Wright Field. The plane has four motors. Designed by Anthony H. G. Fokker,

the F-32 is built to carry 30 passengers in daytime and can be converted into a mail pullman with 16 berths for night flying.

## Orlebar Makes New Plane Speed Mark

Calshot, Eng., Sept. 13.—(AP)—A British airman, squadron leader Augustus H. Orlebar, Captain of the British Schneider cup team, was undisputed speed king of the world today, after breaking the world's airplane speed records twice within a week.

Yesterday the airman averaged four flights over a three kilometer course for a speed of 357.7 miles per hour, 9 miles per hour more than when he broke a previous world's record Tuesday by flying 355.8 miles per hour.

They say our young folks are just as good as they ever were, but just the same the Youth's Companion had to merge. Right now there's a little half-hearted effort being made to establish some sort of feminine waist line, but I'm afraid it's too late.

**Anne Livingston Is Waiting For Money Won In Her Lawsuit**

Chicago, Sept. 13—(UP)—Anne Livingston hasn't got her \$25,000 or found her "idea" yet, but she's waiting hopefully for both.

Eternally feminine, she also would like to see what Mrs. Franklin Harding, who married the big oil burner man who wouldn't marry her, is like.

Doing a bit of mending on some frothy pink things—the mending, she explained, was all Mr. Harding's fault for delaying payment of the \$25,000 breach of promise judgment she obtained against him—the former Tulsa stenographer described the "idea" she admits she thought was Harding.

These are the specifications:

"Ten years older than myself, affectionate, sympathetic, worldly, and able to provide for me and our children—if I ever have any, and I hope I do."

Harding, she added, came closest to that of any man she ever knew.

While waiting for the "idea" and the \$25,000, she may go on the stage—or be a newspaper reporter. The latter, she said, seemed more attractive.

"I'd like," she mused, "to interview Mrs. Harding."

**King Of The Hoboes Is Passing On And None To Succeed Him**

Iowa City, Ia., Sept. 13—(AP)—Through the length and breadth of hobo land today, in the flop houses of Chicago's West Madison street and the "jungle" behind the water towers along the main line railroad tracks in Iowa and Montana, Knights of the Open Road were discussing a fine point in "royal" succession.

On a bed in the University hospital here James ("Speed") Murphy, King of the Hoboes, lay dying. Wherever hoboes gather the problem of who will succeed Murphy is being talked over by his "subjects."

Murphy's past is obscure. No one knows of any children who might succeed him on the hobo throne. In all probability the mythical hobo crown will go without a wearer until

**MODERN ADAM BALKED**

Frederick, N. B., Sept. 13—(UP)—Burt M. McConnell, New York editor who wanted to prove a man could overcome any obstacle, failed on his first attempt when he tried to sally into the New Brunswick wilderness clad in a pair of spectacles.

Provincial officials have denied McConnell permission to carry out his campaign to prove he could live until Thanksgiving without any of the conveniences of civilization.

These were the five commandments, posted by her husband in her bed room, that have made Mrs. Skolnick chafe for a year.

"You are to remain home all hours of the day. No running around.

"You are to have no friends visit you. This includes your mother.

"You are to keep the house spot and span.

"You are to keep all secrets of the house to yourself.

"If you want to be happy, remain at home."

**Bay Rum Is Not Yet Outlawed, Although Jury Condemned It**

Des Moines, Ia., Sept. 13—(UP)—Condemnation of bay rum sold in Woolworth five-and-ten-cent stores, ordered last night by a jury because it had a high alcoholic content and the fact it can be used as a drink, does not mean the bay rum bottle will have to vanish from the barber's shelf.

This case applies only to the bay

**To Call Capone In Lake County Quiz**

South Bend, Ind., Sept. 13—(UP)—Al Capone, Chicago gang chieftain, now serving time in a Pennsylvania jail for carrying a gun, will be called before the northern Indiana federal grand jury which is investigating racketeering in Lake county. It was learned today.

It was understood that Capone's name was brought into the government investigation by witnesses who appeared before the jury.

The government was said to have learned that Capone ruled "the rackets" in the Calumet region and dictated some of the political appointments.

Nick Sudovich, said to be Capone's chief lieutenant in Lake county, is held by the government on a liquor charge and in a murder conspiracy.

**Tired O'Livin' And Feared O'Dyin' But She Conquered Fear**

Philadelphia, Sept. 13—(UP)—A Negro girl sat on the banks of the Delaware and hummed her own threnody to the lit of jazz.

Longshoremen stopped to listen to a Negro singing "Ol Man River" and applauded as the girl's voice rose hysterically in the chorus:

"Ah gits weary an' sick o' tryin' 'Ah'm tired o' livin' and feared o' dyin'."

There was a splash. The crew of harbor boat No. 1 recovered the girl's body which has not been identified.
